Road Crossing Tips for Parents:
**Explain to the children what you are doing**

---

**STOP**
On the footpath or grass. Not the gutter.

**LOOK**
As far as you can see down each side of the road. Look over your shoulder.

**LISTEN**
For cars, truck and bikes. Have another quick look.

**THINK**
Ask yourself: “Is it safe for me to cross all the way? I know not to run, stop or play with my friends until I get to the other side.”

When crossing a road try and find a space which lets cars see you. If possible never walk out from between parked cars or cross on a bend.

**REMEMBER TO TAKE CARE**
